Profile Summary

Hi, I'm Amir. a Computer Engineering student with a strong interest in web development. I mainly work on front-end projects using Next.js, and I also have basic knowledge of back-end development with Express.js. I'm currently studying and improving my skills through personal projects and hands-on learning. My goal is to grow as a full-stack developer and build modern, user-friendly web applications.

Education

Diploma in MATHEMATICS DIPLOMA

Branch: HIGH SCHOOL

Rasht, Gilan, Iran

2019 - 2023

Projects

E-Commerce Website

In this project, we built an e-commerce website using Vite and Express. I was responsible for both the front-end and back-end development. The goal was to create a simple and user-friendly online store with a blog section to share product-related content. The project also included a custom CMS for managing the admin dashboard.

Personal Website (Portfolio)

In this project, I designed and implemented a personal portfolio website using React. My goal was to showcase my portfolio, skills, and contact information in a professional and appealing manner. Additionally, this website is bilingual.
